

POWERFOGGER V60

POWERFUL FOGGER GREAT FOR SMALL ROOMS

Simply the best results

The Powerfogger V60 is a versatile and easy-to-operate nebuliser **specially designed for smaller rooms**. With its powerful air pump, the Powerfogger can nebulise 20 litres per hour and can therefore easily disinfect or treat several departments in a row against, for example, flies. This makes the Powerfogger V60 very versatile and, due to the labour savings, it can be earned back quickly. The Powerfogger V60 is also suitable for room treatments in the food industry.

Depending on the options on your fogger, your product may look different from the image.
